

Clean Hands Save Lives

Hygienic Hand Sanitation Protocol

Your 5 Moments for Hand Hygiene – Exotics

The steps on how to clean your hands

- › Waterless rubs are your preferred way of sanitising your hands.
- › A 30–60 second application of the rub* according to the above technique is necessary.
- › Use water and soap for 40–60 seconds only when hands are visibly soiled.

* Depending on the formulation of the product used (refer to manufacturer recommendations).
Use products that have passed the prEN1500 norm or similar.
